Software Developer

- The project involves on transferring file from SFTP location (Olympus Platform) to Azure Blob Storage.
- Olympus Platform (Data Mining) generates file in Tsv and Zip Formats, the project involves converting this Tsv file had to be converted to txt format and stored in Azure Blob Storage.
- The data inside Zip files had to be extracted and stored in Azure Blob Storage.

Role Played

- Independently perform analysis and translating business requirements.
- Responsible for development of transferring files to blob storage.

Environment: Node JS, Azure Blob Storage.

Education

B.E

NMAM INSTITUTE OF TECHNOLOGY

August 2015-May 2019

Bachelor of Engineering in Electronics and Communication Engineering

Secured CGPA - 9.19

P.U.C

Vijaya Composite PU College

August 2015-May 2019

Secured -84.56%

SSLC

Carmel High School

August 2015-May 2019

Bachelor of Engineering in Electronics and Communication Engineering

Secured CGPA - 9.19

Achievements

- ★ Client Appreciation for Automated Mail of Daily Sales Reports.
- ★ Worked as an Intern Under 'Implant Training' In Bharat Heavy Electricals Limited (Electronic Division) for a duration of 1 month.
- ★ Organizer Of 'Spent Quiz' in the fest "INCRIDEA" of NMAMIT.
- ★ Student Representative and Cultural Co-Ordinator - Carmel High School

Personal

Details

Date of Birth : 6th January 1997

Father's name : Giridhar Kini

Address : #27 , Karthik 18th Main 2nd

Cross, Chikkalasandra

Munireddy Layout,

Bangalore-560061

Contact Number : 9743265127

Email-ID : srinidhikini7@gmail.com

B.E in (Computer Science)

Canara Engineering College

Aug 2012 - June 2016

Bachelor of Engineering in Computer Science & Engineering from Visveswaraya Technological University in year 2016 with 65.43%

Pre-University College

Vijaya Composite PU College

Jun 2010 - May 2012

Secured 54.90% in PCMC discipline

SSLC

Vijaya High School

Jun 2009 - Apr 2010

Secured 64.96% in KSEEB board exams

Academic Projects

- ✧ Designed a college portal Named "CANTEL" using the concept of learning management system where students can access notes, educational videos and Open house chat feature.
- ✧ Designed a 3d car showroom project using OpenGL library where user can view different cars and its features in the showroom with a click of a button.
- ✧ Designed a programming workflow using C for transport problems using (MODI) method in operation research.
